You do not have to print the entire manual 3M Projector S55 but the selected pages only. paper. If you want to quickly view the content of pages found on the following pages of the manual, you can use them. Retain these instructions for future reference. The lamp can break with a loud bang, or burn out, if jolted or scratched, handled while hot, or worn over time. Note that each lamp has a different lifetime, and some may burst or burn out soon after you start using them.

In addition, when the bulb bursts, it is possible for shards of glass to fly into the lamp housing, and for gas containing mercury to escape from the Also, do not install an old or previously used lamp. 1. Remove lamp access door The lamp access door is located on the bottom of the machine. Use a screwdriver to unscrew the cover retaining screw 1, then slide and take the lamp access door up. 2. Retaining screws Use a screwdriver to unscrew the lamp module retaining screws. 3 v Note All lamp module screws must be loosened. These screProof of purchase date will be required with any warranty claim. In the event this product is found to be defective within the warranty period, 3M's only obligation and your exclusive remedy shall be replacement of any defective parts labor included. To obtain warranty service, immediately notify the dealer from wConservez ces instructions pour pouvoir les consulter par la suite. Si vous secouez ou que vous éraflez la lampe ou que vous la touchez lorsqu'elle est chaude ou trop usee, elle risque de se briser en explosant bruyamment ou de se griller. Remarquez que chaque lampe a une duree de vie differente et qu'il arrive que certaines lampes explosent ou se grillent des que vous les utilisez. En outre, s. In order to navigate out of this carousel please use your heading shortcut key to navigate to the next or previous heading. Register a free business account Please try your search again later. This remote is ready to use and does not require programming, just insert 2 x AAA batteries batteries are not included and enjoy your remote. This remote certainly provides all the basic commands for your device that allows you to turn it on and off, navigate the menu and select video source and many of additional functions.

Voltarea remote has a builtin laser pointer, that is a great tool for performing classes, presentations or meetings. User manual of the remote can be found on our website or by contacting us. Amazon calculates a product's star ratings based on a machine learned model instead of a raw data average. The model takes into account factors including the age of a rating, whether the ratings are from verified purchasers, and factors that establish reviewer trustworthiness. Please check your inbox, and if you can't find it, check your spam folder to make sure it didnt end up there. Please also check your spam folder. After reading, store them in a safe place for future reference. The meanings of these symbols are described below. It requires just a little space for installation and gets a large image from short distance. The image can be still kept as bright and clean enough for use in bright rooms. It is perfect for use in low luminance rooms where low noise is more important than brightness. It can be easily connected to many signal sources like PC, DVD and so on. The rich connectivity provides you more options to make your presentation impressive. Contact immediately your dealer if anything is missing. For moving the projector, be sure to use the original packing material. Use special caution for the lens part. In such a case, please push the Restart switch by using a cocktail stick or similar and before turning on again, make the projector cool down at least 10 minutes without operating. Only push the Restart switch in these exceptional instances. And in the case of a ceiling installation or the like, contact your dealer Put nothing on the projector. This projector has some intake vents also on the bottom. To prevent damaging the projector and injuring yourself, always hold the projector whenever using the elevator buttons to adjust the elevator feet. The adjustment range of the elevator feet is 0 to 9 degrees. Allow the lamp bulb to cool for at least 45minutes.

To remove it, slide the It is higher than usual lter cover, to keep the space for intake ventilation. Please change in the following procedure. Please be careful for a projector Some cables have to be used with core set. A too long cable may cause a certain picture degradation. Please consult with your dealer for details. For cables that have a core only at one end, connect the core to the projector. For details on how this is done, please refer to the instruction manual of the corresponding laptop computer. Use of some of these modes will not be possible with this projector. Then the resolution will go back to the original. It might be recommended to use other CRT or LCD monitors to change the resolution. PlugandPlay can be achieved by connecting this projector to computers that are VESA DDC display data channel compatible. PlugandPlay may not work properly if any other type of connection is attempted. If it is damaged, contact your dealer to newly get correct one. Never attempt to defeat the ground connection of the threepronged plug. Do not mix a new battery with used one. Doing so may result in malfunction. Adjust the direction of the projector to keep light from directly hitting the projector's remote sensor. Our payment security system encrypts your information during transmission. We don't share your credit card details with thirdparty sellers, and we don't sell your information to others. Please try again. Terms apply. Works straight out the box Superior Quality Remote. Find out more about our Delivery Rates and Returns Policy It does not need any form of programming just insert batteries and it is ready to use.

RM Series remote control has been designed and assembled from the original remote control. The remote is assembled and checked in the UK. RM Series use the latest remote control technology chipsets to ensure the infrared codes match that exactly of the original remote control. IMPORTANT Unlike other generic replacement remotes the RM Series buttons are all 100% LABELLED correctly. Other generic replacements often have a standard button layout to save costs, with incorrectly labelled buttons and therefore needs instructions to tell what each button function is. This can lead to confusion and constantly referring back to the manual can be highly inconvenient for the end user. RM Series buttons do exactly what they are labelled to do so no need to constantly refer to manuals and instruction sheets. The RM Series range of remote controls has been a popular choice of the professional TV servicing industry across Europe for over a decade. Unlike more generic replacements, each individual RM Series remote control is customdesigned to operate EVERY function of the original remote that they replace. The case style itself has been designed for sturdiness and reliability, whilst the buttons and text are optimised for visibility and ease of use. To meet the demands of the servicing industry, the materials and components used within the remote are carefully specified to produce a thoroughly reliable product and undertake vigorous testing to ensure long term use. All RM Series are CE and ROHS compliant. Amazon calculates a product's star ratings based on a machine learned model instead of a raw data average. The model takes into account factors including the age of a rating, whether the ratings are from verified purchasers, and factors that establish reviewer trustworthiness. The 3M Projector manuals are sorted by popularity among Guidessimo users by the number of downloads and views on our website. The first GSM network went live in 1992 in Finland. They enable such advanced features as live, streaming video. The most prevalent is UMTS, which is based on WCDMA the terms WCDMA and UMTS are often used interchangeably. Unlike SMS, which is textonly, MMS can deliver a variety of media. This media may include up to forty seconds of video, audio, one image, or a slideshow of multiple images. MMS requires a third generation 3G network to send large MMS messages though smaller MMS messages may be transmitted over second generation networks using GPRS.
