I dont know if you have the RAID5Option I have. After a while I found out that I need to set the alternate IPL device to the same device RAID Controller! as the primary The CDRROM is also connected to the RAIDController logically. I think the SAS Tape drive is also connected to this controller because its plugged into the backplane. Your posted ASMI settings look correct, though. Especially IPL type.Especially console handling without any OS installed is somewhat annoying, so I opted for a HMC which also made it easier for me to allocate and relocate resources between LPARs.
