In June 2014, ROBLOX introduced their simplified privacy policy and terms of service. Under this policy, all private chats were deleted upon logging out.[4] However, any game-related chats will remain in-game. Users are able to delete their own game-related chats, but deleting a chat does not automatically delete the messages or comments within that chat.

ROBLOX has been criticized many times since its creation. Many users have been dissatisfied with ROBLOX's in-game currency system which involves real money transactions. The price of things such as hats and shirts can be absurdly high, which causes some users to scam others out of their money. This can discourage people from making positive contributions to the game due to its poor reputation among many players.

In Roblox, players can create an avatar in whatever shape, form, or color they wish (as long as it's not offensive). But before they can do so, they must choose from a variety of different body parts, heads, legs, arms, etc. There are also many different hairstyles to choose from. There is a large variety of clothing options to choose from, each with its own effect.

On July 31st, 2019 ROBLOX released another version update for Studio 2.1 (known as "Studio 2.1.1") which fixed a lot of major glitches and bugs that were present in previous versions of Studio and also included a better way for players to customize their own physics settings.

ROBLOX also shares user information such as email addresses with any business partners that are directly involved in the provision of ROBLOX services, such as developers and advertisers. ROBLOX reserves the right to send or share non-personal information with third parties in order to assist them in providing accurate behavioural advertising and targeting.
